

# Bring Learning Ally into your school

## Learning Ally transforms struggling readers into confident students.

- Access grade-level content and work independently
- Increase reading motivation
- Build self-confidence
- Achieve recognition through reading contests and scholarships

## Learning Ally supports effective reading programs.

Learning Ally creates human-narrated audio textbooks, literature and education solutions for students with print and learning disabilities including dyslexia. Learning Ally works with thousands of schools across the U.S. and has been selected by nine states as an assistive technology accommodation for struggling readers with IEPs and 504 plans. Students using Learning Ally access grade-level content, work independently and achieve academic success!

*"Learning Ally — it's exactly that, an ally. I have seen this program used by so many different students with different struggles, yet it does the same thing for each and every student; it builds their confidence in their reading skills. They're understanding. They're asking questions. They're reading. They're retaining! I love it!"*

—RACHEL SILVEY, Language Arts Teacher
