

CHECKLIST LESSON PLAN

“Helping Students Succeed with the Learning Ally Audiobook Solution” Lesson Plan

Introduction

Struggling readers need support, encouragement and explicit instruction to build their confidence and reading skills.

We encourage you to introduce students new to the Learning Ally Audiobook Solution using our Scavenger Hunt lesson. If they are still reluctant to log in and read with the Learning Ally Audiobooks App, consider supporting them with this checklist. Remember to affirm students strengths, empathize with their challenges and reward each small step in the right direction.

Make modifications as needed for your student.

Sample Script

Hi [student name].

I notice that you completed your scavenger hunt, but I haven't seen you reading with the Learning Ally Audiobooks App. I've noticed how much effort that you are putting into your school work and I am really hoping the audiobook app will be a help you make even more progress. I've confirmed that you were able to download the app and navigate the app to add books. You should know that it takes most students at least five tries before they can start to build the habit of reading with the app.

Let's try this checklist to see if we can help you build your reading momentum!
