

Structured Literacy in Action

Equip your educators with effective and actionable training in structured literacy instruction

98% satisfaction rate

Efficient and practical training to close the learning gap for struggling readers

While most states require professional learning in science-based reading instruction, less than 30% of education preparatory programs focus on this evidence-based approach to literacy.

Our award-winning professional learning enables timely implementation and results

- Learn practical strategies that leverage your district's curriculum
- Support effective and lasting implementation
- Meet state professional learning requirements for evidence-based reading instruction affordably
- Choose from flexible delivery options to accommodate busy schedules
- Enable families to better support their children at home

I would recommend the training to colleagues, especially those in districts that want everyone to have a common understanding and language around literacy."

— DR. SARAH LEE, DIRECTOR FEDERAL PROGRAMS AND CURRICULUM
NICHOLAS COUNTY SCHOOLS, WV

Structured Literacy in Action for Educators

Grades PreK-6 | 15 Total Hours

(5 2-Hour Workshops and 1-Hour Communities of Practice Sessions)

A comprehensive professional learning program built on science-based reading practices and designed to expand a district's instructional capacity. Participants will master the fundamentals of effective literacy instruction and acquire practical strategies they can immediately apply in their classrooms. Course topics include:

- **Foundations of Structured Literacy** – Develop a collective understanding and deepen knowledge of how students learn to read.
- **Building Readers' Word Recognition** – Learn how to deliver explicit phonics instruction through a sequenced structured literacy lesson progression.
- **Strengthening Language Comprehension** – Deepen educator understanding of targeted strategies and essential reading instruction components, emphasizing language comprehension.
- **Develop Vocabulary-Rich Instruction** – Explore how an intentional focus on vocabulary can play a key role in language comprehension.
- **Interweaving the Strands for Fluent Reading** – Connect the strands of effective, structured literacy instruction to design targeted instruction aligned to students' needs.

**Flexible
Delivery Options**

*Facilitator-Led Online,
In-Person On-Site,
or On-Demand*

Supporting Striving Readers at Home for Families

Help parents and caregivers better understand the challenges their children face and how to provide effective support at home.

- Co-hosted by Learning Ally and district
- One-hour, interactive virtual session led by an expert facilitator
- Appropriate for all families, including multilingual speakers, whose children struggle to read

“

**I cannot say enough good things about it.
The parents felt empowered and inspired.”**
